SUMMARY

Motivated and growth-oriented individual seeking a position that fosters continuous learning and skill development. Eager to contribute my knowledge, adapt to new challenges, and create meaningful value that supports the company's long-term success.

WORK EXPERIENCES

Mid-Level Software Developer - NATCCO NETWORK (Finance & IT Company)

Promoted from Junior Software Developer on September 21, 2025

August 2023 – Present

- Lead front-end development for internal web systems, focusing on responsive design, usability, and performance
- Designed and implemented user interfaces using modern front-end technologies to improve overall UI/UX
- Collaborated with UX designers, back-end developers, and QA to deliver user-centered and scalable solutions
- Actively participated in Agile SCRUM sprints, stand-ups, sprint planning, and retrospectives
- Wrote, reviewed, and maintained clean, reusable, and well-documented front-end code
- Investigated, debugged, and resolved issues using a structured ticketing and issue-tracking system
- Worked closely with QA to test, validate, and refine front-end features before deployment
- Created wireframes, prototypes, technical documentation, and user manuals to support development and business needs
- Contributed to performance optimization, UI consistency, and continuous improvement initiatives across applications

Programmer – SnL Virtual Partner (Web Development / IT Company)

January 2023– April 2023

- Gained hands-on experience in full-stack development using React.js and Node.js
- Wrote, maintained, and debugged clean, functional code for web-based applications
- Participated in bug fixing and conducted unit testing to ensure software reliability
- Created technical documentation and delivered presentations to support project development and team communication
